Attention is invited to P.W.D. Cir. Memo. No. 8994/27, dated 22-10-34 according to which all applications for provisi on for new elec. installations should be considered together at the budget time. For 1937-38 and 1938-39 the budget decisions have been that works should be undertaken if savings to that extend were available. Works which were already approved by Govt. in the current year but could not be undertaken for want of funds have not been included in the statements forwarded by the P.W.D. These works will be carried out when funds become available No extra provisions are required for the wo works mentioned in the accompanying statements. The statements may be printed for being before the Cabinet.

2. As regards para . 2 of the P.W.D. memo it is understood that the works referred toare in the bldgs. in charge of the Poona Water Works Divn, and no extra funds will be required for them. They will be printed when received.

Id.
22-11-38.

We may follow the usual prodedure this year but in view of the decision of Govt. last year and the previous year which was to the effect that there was no objection to aprroval of all the works and their execution, provided they could be financed form the grants for monor works already., sanctioned , the P.W.D may be asked to consider whether is any advantage is following the present procedure andif not, to obtain the orders of Govt. to the cancellation of the Cir.

This note has been written after consultation with Secy.

2. With reference to the note by the Dy. Secy. P.D., it-m may be stated that there seems to be no particular advanta ge in following the present procedure, which is laid down in G.C.M. (P.W.D.) No. 8994/27, dated the 22-10-34, That prodedure was introduced in view of the then financial position of Govt. Since xxxxxxx these minor items of new elec. installations are to be financed by the officers cone cerned from within their disc., grants it is for the office rs to make the best use of the money placed at their dispo- sal . If however, there is any major item (costing more than Rs. 10,000) of elce. installation it will of course undergo the usual procedure, i.e., discussion by the Counci il of Ministers at the xxxx time of the annual Budget and the vote of the Leg- Assembly. This Department may hence a agree to the cancellation of the Cir. mentioned above. As however the existing procedure is inconnection with the ann mual Budget and affects all Departments., it is suggested that the P.D. may xxxxx obtain the orders or Govt. on this point and communicate it is to this Department. after which steps will be taken to cancel the G.C.M. in question.

3. These papers may be returned to the P.D. with above note.
